General Practice Surveys - GPs, Practices & Patients

This week, we have received several surveys for practices to either complete or share with patients. Please see below:

BMA: GP Opinion Survey 2024:

The BMA's annual GP Opinion Survey gathers GPs' views on current issues and opportunities facing General Practice. The BMA want to hear from as many GPs and GP Registrars as possible. The more responses received, the stronger GPC England's position will be as we enter negotiations for the next GP contract.

Survey Link: [General Practice Opinion Survey 2024 \(research.net\)](https://research.net)

Lincs ICB: AQP MSK Staff Survey:

We want to understand your experience of working in MSK physiotherapy services and ideas of how we could improve this.

Lincs ICB: MSK Service Patient Survey:

Please encourage patients to share their experiences and views of MSK physiotherapy services in Lincolnshire to help shape how they are delivered in the future. Patient Survey Poster available to download by using the button below.

Save the Date GP Careers: Enhance Programme

Message from Lincolnshire Training Hub:

Save the Date: Wednesday 27th November 9.30am – 1pm (Sleaford)
GP Careers: Enhance Programme

As part of wider Primary Care workforce retention work across Lincolnshire, we wanted to invite you to a special event focusing on our GP workforce. We are keen to engage with our existing frontline GPs to help us formulate a clear picture about what we are currently offering in terms of training, wellbeing support and opportunities for our GP colleagues working in Lincolnshire but also explore how we

can expand and increase our offering to GPs working in all roles across the county.

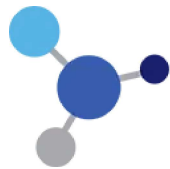

We would value your experience and insights as we explore, with the help of a trained facilitator, our vision for future GPs in Lincolnshire and how we can work towards achieving this.

Please complete the form to register your interest, and we will confirm attendance by Friday 8th November. We will use the information on the forms to ensure we have representation from GPs at all career stages present.
