

Dear Colleague.

We write to you as Lincolnshire LMC, representatives of Lincolnshire general practice.

Please be aware that as part of GP collective action, general practice has reviewed services and those workloads which are currently undertaken, but not a commissioned service in general practice. Due to the escalating pressures on general practice, we can no longer absorb this non-commissioned specialist work from secondary care.

Monitoring of MGUS is one such workload.

Your department will likely soon see referrals from GP practices for you to arrange ongoing review of these patients and appropriate monitoring.

Please note that these referrals cannot be rejected as are clinically appropriate, but should this workload cause a challenge for your department, please raise this with Lincolnshire ICB as the commissioner.

Thank you for your ongoing care of our mutual patients to continue their safe monitoring.

Dr Reid Baker

Medical Director Lincolnshire LMC
