Practice Managers - IGPM Accreditation

IGPM have developed the ONLY register of recognised professional managers working in General Practice in the UK.

Lincolnshire LMC is running another 10 week programme of preparation sessions. Each session will cover one of the 10 key areas of practice management breaking the application down into bitesize pieces.

We are also offering to pay the initial accreditation application fee.

This cohort will be running from January with application submission in April

L5 General Practice Manager Apprenticeship

The course is made up of 10 modules covering different aspects of management, including a workplace project. This programme has been developed in partnership with the IGPM to make it more relevant to general practice than the usual generic management course. In addition, the programme will run alongside the IGPM accreditation domains so by the time students complete, they should have everything they need to submit their IGPM accreditation application.

Suitable for:

- Individuals already in a management role within a Lincolnshire general practice who do not already hold a L5 qualification and who are wanting to develop.
- Individuals new to practice management.
- Team leaders and departmental managers aspiring to become practice managers in the future.

This is a great opportunity for practices to nurture talent and support succession planning.
